

Why Camp Pelican is the right choice for your family

We're pleased that you're considering Camp Pelican this summer. Choosing a camp is a tough decision and we hope that the following points make your choice a little easier:

- ***Our family is dedicated to serving your family.*** Since 1965, the Hellwig family has been the sole owners & operators of Camp Pelican. Each and every camping day, three generations are on-site ensuring the finest camping experience for your camper.
- ***We believe that adults should supervise your campers at every level.*** The minimum age for group counselors is 21 years old. Last season, the average age for our staff was 30 years old. Our 2009 staff members had an average of 7 years experience at Camp Pelican. Administrators had an average of 15 years with Camp Pelican.
- ***A camp site with outstanding amenities.*** A 32-acre campus featuring both indoor and outdoor pools. Air-conditioned activity rooms that keep our campers busy and comfortable rain or shine.
- ***Door to door transportation included in your fee.*** Our fleet of air-conditioned vans is upgraded yearly. No vehicles are more than a year old while over 50% are brand new. This ensures the latest safety advances and enhanced reliability for your campers.
- ***We are responsive to the needs of our campers.*** Camp Pelican offers three separate programs tailored to various ages. We offer flexible dates designed by you to match your family's unique needs. Camp lunches are available as an option, not a requirement.
- ***Camp Pelican is accredited by the American Camping Association.*** We must meet over 300 diverse standards to maintain our certification. Only about 25% of camps in the entire country merit this recognition.
- ***Our program is a good value for families.*** Compare our fees with other camps and we think you'll agree. We offer a 10% sibling discount and our fees include door to door transportation, an adult staff, small groups, excellent facilities and all activities/events/trips/shirts with absolutely no additional costs.
